

Baroda Chest Group

RESPIRATORY EMERGENCIES

Venue: Lukshmi Vilas Palace (LVP) Banquet Halls, **Date:** 18 Sept 2016 Sunday, **Time:** 9.00 am - 12.45 pm

Very few emergencies present as dramatically as the ones associated with respiratory diseases. The red splash of Hemoptysis to the dusky blue hue of cyanosis, the audible wheeze of acute asthma to the fulminating course of severe pneumonia - all of this form the subject of Baroda Chest Group's mid annual CME which will focus on individualised case - based approach to some of the commonly encountered respiratory emergencies in your day-to-day practice. A galaxy of faculty with vast experience and enthusiasm will take you through interactive sessions giving a roadmap on the best approach to acute respiratory disorders.

Dharmesh Patel
on behalf of
Baroda Chest Group
